

Sijal Neupane

Flutter Developer

Banepa-4 , Banepa • 977-963022844 • sijalneupane5@gmail.com

 @ <https://github.com/sijalneupane>  @ <https://medium.com/@sijalneupane5>  @ https://x.com/_sijalneupane

Motivated and detail-oriented Flutter developer with solid idea and experience in building cross-platform mobile applications, complemented by backend development skills in Django and Django REST Framework. Proven ability to implement real-time features using Firebase, including push notifications and authentication systems. Passionate about creating clean, scalable, and user-friendly apps with a strong focus on performance and security.

EDUCATION

Higher Secondary - 12th

Banepa NIST School (NEB)

Banepa

Sep, 2020 - Jun, 2022

Bachelor of Computer Application (BCA)

NIST College (TU)

Banepa

Dec, 2022 - Present

PROJECTS

Assignment Management App (Full Stack School App)

A role-based school app supporting assignments CRUD with secure authentication using JWT and state management using Provider.

Used Django and Django Rest Framework (DRF) for implemenation of backend logic, authentication and authorization.

https://github.com/sijalneupane/assignment_provider_app.git

Online Election System

Developed a web based voting system for online elections with voter registration, admin veification and approval ,login, candidate lists, voting and results managements.

https://github.com/sijalneupane/Digital_Matadan_Pranali-Online_Election_System

Car Rental System

Developed using Flutter and Firebase ,it is a mobile application for booking cars with user login, profile, and booking features.

https://github.com/sijalneupane/car_rental_system.git

ACHIEVEMENTS

Developed and Deployed Online Election System

Developed an Online Voting System named "Digital Matadan Pranali" using HTML, CSS, JS and PHP + MySQL along with PHPmailmaster and abstract api integration and CSS as a university-level project and deployed in infinityFree.

Firebase Notifications Implementations

Integrated real-time Firebase notifications into apps using Flutter, Firebase and Django + DRF.

TRAINING/CERTIFICATIONS

Flutter Professional Course

Next Step, Banepa

2025

Learned about Dart, Flutter, Firebase integration, APIs integration with authentication and authorization from instructor having 5+ years of working and teaching experience about Flutter and Java/Springboot

SKILLS

Python Django, DRF, Dart and Flutter, MySQL, PostgreSQL, HTML, CSS, Javascript, Php, firebase, Git and Github, Cpanel
